

2025 POWER SOURCE DISCLOSURE ANNUAL REPORT

For the Year Ending December 31, 2025

GENERAL INSTRUCTIONS

Retail suppliers are required to use the posted template and are not allowed to make edits to this format.

Please complete the Retail Supplier Name and contact information in column B below.

RETAIL SUPPLIER NAME	Desert Community Energy
CONTACT INFORMATION	
NAME	Lisa McNeilly
TITLE	Director of Energy & Sustainability
MAILING ADDRESS	74199 El Paseo, Suite 100
CITY, STATE, ZIP	Palm Desert, CA 92260
PHONE	760-346-1127
EMAIL	lmcneilly@cvag.org
WEBSITE URL FOR PCL POSTING	https://desertcommunityenergy.org/about/key-documents/

Instructions

1. Enter electricity portfolio names in cells Q27-V27, as needed.
2. Enter the megawatt hours (MWh) of retail sales associated with electricity portfolios in cells Q26-V26, as needed, and the MWh associated with other end uses in cell W26.
3. In the table beginning with cell A26, enter information about all specified purchases. All fields in white should be filled out. Fields in grey auto-populate as needed and should not be filled out.
4. Default loss factors will auto-populate based on resource location. Enter a custom loss factor if applicable. All custom loss factors require additional documentation.
5. If a resource's losses are covered by the generation seller under contract, select "Yes" in the relevant cell in column M: "Specified Losses Covered by Seller?".
6. For firm-d-3-shaped procurements specifically, enter all fields from step 3. Additionally, enter the EIA ID of the substitute power in the "EIA ID of Delivered Energy" field.
7. For firm-d-3-shaped procurements eligible for grandfathered GHG emissions, select "Yes" in the relevant field in column L: "Eligible for Firm-d-3 Shaped Grandfathering?".
8. Proxy EIA IDs for unspecified power and specified system mixes from asset-controlling suppliers have been provided: Enter "Unspecified Power", "BPA", or "Falcona Power" as applicable.
9. Proxy EIA IDs for aggregated reporting of WAPA CVP or PCIA resources have been provided: Enter "CVP", "PCIA Wind", "PCIA Eligible Hydro", or "PCIA Large Hydro" as applicable.
10. Only unspecified imports purchased directly from a seller under contract or ACS unspecified power procurements must be entered as end items; any additional unspecified power is allocated automatically in individual electricity portfolio tables after all specified resources are allocated.
11. Allocate net MWhs procured to each electricity portfolio until the loads are balanced across each portfolio. If the total Net MWhs Procured exceeds the total retail sales of all portfolios, allocate only enough MWh to meet the retail sales of each portfolio.
12. If electricity portfolio loads are balanced and net MWhs remain, allocate net MWhs to cover losses in the column starting with cell X28. This will add new losses, resulting in a new net short of unmet load in Cell X26. For retail suppliers that want to cover 100% of their loss-adjusted load with specified procurements, continue allocating specified procurement in Column X until Cell X26 shows no unmet load.

Resource and GHG Allocations													Checks		
*Indicates GHG figures are preliminary until the calculation of the annual unspecified power emissions factor													Portfolio and other end use allocations	Status

*NOTE: The figures above are preliminary.

Staff will calculate the GHG emissions factor and fuel mix breakdown (percentage derived from renewables and zero-carbon resources or fossil fuels) of unspecified power after data from all reporting entities is submitted.

ASSET CONTROLLING SUPPLIER RESOURCE MIX CALCULATOR

Instructions: Enter total net specified procurement of ACS system resources into cell B5 or B19

In Column C, the calculator will determine quantities of resource-specific net procurement for entry on the Annual Data tab.

**2025 POWER SOURCE DISCLOSURE ANNUAL REPORT
ATTESTATION FORM
For the Year Ending December 31, 2025
Desert Community Energy**

I, Tom Kirk, Executive Director, declare under penalty of perjury, that the information provided in this report is true and correct and that I, as an authorized agent of Desert Community Energy, have authority to submit this report on the retail supplier's behalf. I further declare that all of the electricity claimed as specified purchases as shown in this report was sold once and only once to retail customers.

Name: Tom Kirk

Representing (Retail Supplier): Desert Community Energy

Signature: _____

Dated: _____

Executed at: Palm Desert, CA
